

KVHC's Board of Directors

Katahdin Valley Health Center's Board of Directors is a volunteer committee comprised of residents throughout the Greater Katahdin Region who are committed to ensuring that people throughout the Greater Katahdin Valley have access to affordable, quality healthcare.

The role of Board members is to oversee the Center's functions by providing policy level leadership and monitoring and evaluating the Health Center's performance.

Strategic thinking and planning are essential functions for Board members within the context of the environment in which KVHC operates, while pursuing its mission, vision and goals. KVHC is well positioned with its diverse and skilled board members, representing the area's legal, managed care, business, finance and social services sectors of our communities.

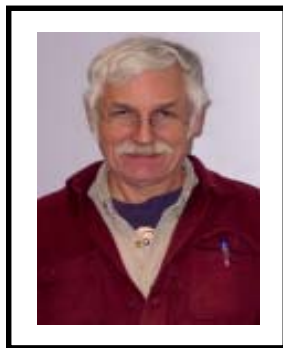

Board members meet each month at a site location. Subcommittees include finance, strategic planning, executive personnel, finance, public relations and credentials / privileges. The Board provides leadership and guidance in support of KVHC's mission, ensures that KVHC operates in accordance with federal, state and local laws and regulations, and is financially viable.

Under the Board's guidance, KVHC has blossomed, offering quality, cost effective integrated health care to children, adults and families at its medical clinics in Houlton, Island Falls, Millinocket and Patten and its dental clinic in Millinocket.

*Linda Goodall, President,
KVHC Board of Directors*
